

Directions for NUMBER BINGO

Print the Number BINGO cards. Cut the numbers on this sheet out on the dotted lines. Put the numbers in a small bowl or bag. Have the children take turns choosing a number, saying its name, and putting a penny, an M&M candy, or a piece of cereal (like Cherios) on the numbers as they are picked and called. You can choose the way you would like to play the game. The first person who covers an entire row across or down (or both across and down), all 4 corners, or all of the numbers on the card (cover all) is the winner.
